**Abstract**

*Study of data collected from 60 students by administering questionnaires on their information seeking and requirements at University of Kalyani indicate that guidance in the use of library resources and services is necessary to help students to meet their information requirements. Found that journals, textbooks and lecture notes are the most popular sources of information for the students' course work. Recommends that latest edition of textbooks and reference materials should add to the library collection. Suggests that the CD-ROM databases of journal archives and reference books be added and users should be guided to use the resources of the library.*
